The following is an examiner's statement of reasons for allowance: In view of Applicant's arguments on page 7 of the Appeal Brief and Applicant pointing out that the definition of the temperature indicator stick in the specification, Applicant defines the temperature indicator stick over the prior art of record as a chalk stick made of chemical compound granules that melt at desired temperatures, wherein the temperature probe of Fox U.S. Patent 4,875,782 is an electronic sensor that sends the temperature reading to an electronic indicator. The temperature probe does not melt as the Applicant as defined the temperature indicator stick in the specification in paragraphs [0003] and [0021].

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
